

HDI Waterborne AsahiKasei WT33-100

ABOUT:

DURANATE™ WT30-100 by Asahi Kasei is a water dispersible hexamethylene diisocyanate (HDI) with urethane resin compatibility. Acts as a curing agent. Exhibits excellent color retention and outstanding performance. Offers high weatherability, excellent good chemical & abrasion resistance, good adhesion and drying properties. Applications include coatings for automotive, architectural, industrial, consumer electronic and information technology. Other applications of DURANATE™ WT30-100 may include gravure, offset and screen inks.

NCO%:18.6

Viscosity: 1600

Solid content: 100%
